SUMMARY

Full-stack Software Engineer with 3+ years building object-oriented backend services in **Java and Python**, RESTful APIs, and batch processing systems. Applies SSDLC, collaborates in Agile Scrum with product management and QA, and troubleshoots defects across dev, test, and production.

EDUCATION

MS in Computer Science, Western New England University (Advanced Software Engineering, AI & ML Engineering, Software Security)	Aug 2024 - May 2026
BE in Computer Science Engineering, University of Mumbai (Data Structure, Operating System, Natural language processing)	Aug 2016 - Nov 2020

PROFESSIONAL EXPERIENCE

Full-stack Software Engineer Inokrit Solution, <i>India</i>	Jun 2022 - Jul 2024
- Designed 8 object-oriented Java backend services using open-source technologies (Spring Boot, Apache Camel) to process 1,000+ daily payment and order transactions, integrating payment web services and reducing data discrepancies by ~30%. - Collaborated with product management in Agile Scrum sprint planning, backlog refinement, daily standups, and retrospectives improving estimation accuracy and reducing sprint spillover by ~25%. - Refactored insurance portal (policy and payments) in a compliance-driven environment applying SSDLC practices, reducing code redundancy by 40% (SonarQube) and improving JUnit test coverage by 10%. - Developed full stack React front-end components integrated with Java backend payment APIs, surfacing real-time payment and claims data in dashboard views reducing routine support calls by 30% and improving customer satisfaction - Troubleshoot production defects and built CI/CD pipelines (GitHub Actions, AWS EC2/S3/CloudWatch) for job execution, monitoring, and reporting cutting deployment time from 2 hours to 30 minutes.	
Frontend Developer Tekno Point, <i>India</i>	Oct 2021 - Apr 2022
- Resolved 30+ recurring production UI issues tracked through Agile sprint cycles, collaborating with developers and QA to reduce customer support tickets by 65% and report project status to stakeholders. - Designed dashboard views that surfaced the most-requested coverage and claims information, reducing routine support calls by 30% and improving overall customer self-service satisfaction.	
Trainee Software Developer Kings Crown Solution LLP, <i>India</i>	Jul 2020 - Sept 2021
- Built full-stack REST APIs and front-end components in JavaScript and Node.js applying service-oriented architecture, with MySQL on the backend. - Learned and applied best practices in software development methodologies under senior guidance; documented technical specifications and system configurations to support team knowledge transfer and continuous improvement.	

PROJECTS

Self-sovereign ID backend by a blockchain Western New England University, USA
Architected scalable Python backend services on Linux using service-oriented architecture across the full SDLC in a distributed system; delivered secure, fault-tolerant identity verification across distributed healthcare nodes with full audit logging, applying secure software development practices.
Full-Stack RESTful Expenses Analytics APP Western New England University, USA
Built a full-stack web app with Python, Node.js/Express, and React on Linux, with RESTful endpoints, SQL-backed financial data storage, and automated test suites (80%+ coverage, TDD); implemented reporting features enabling sub-second search across 12+ months of data.

TECHNICAL SKILLS

Languages & OOP:	Java (object-oriented), Python, JavaScript/TypeScript, Unix/Linux shell scripting (bash), HTML, C++
Frontend:	React , Redux, Context API, Angular
Backend & APIs:	Spring Boot, Apache Camel , REST API design , Node.js/Express, microservices, batch processing
Agile & Practices:	Scrum, sprint planning, backlog grooming, daily standups, retrospectives, code reviews
Testing & Quality:	Automated testing, Jest, TDD, debugging, production support
Cloud & DevOps:	AWS (EC2, S3, IAM, CloudWatch), CI/CD, GitHub Actions, Docker , Jenkins, Azure
Tools & Practices:	Git, GitHub, Agile/Scrum , Jest, code reviews, Figma, Swagger, MS Office Suite
Certifications:	AWS Cloud Practitioner
